

Return to Work (RTW): UPDATED 23/3/21

Skin Testing: [New or Existing Client?](#)

Have You been insured via our 'Just Hair' salon policy prior to Lockdown?

[If Yes \(Existing 'Just Hair' Client\):](#)

We are advocating that all salons, freelancers and barbers that provide colour services should re Test everyone before a colour service when they return to work (RTW); this to avoid issues hairdressers/ barbers have had re prior COVID positive tests and/ or individuals who have now received their vaccination/s – the whole COVID questionnaires being used in the sector are now becoming a discrimination tool hence the rationale.

Advocate not must; see below:

The key is to ensure that You adhere to manufacturers' instructions (product label and instructions contained will confirm when a test is required).

If You were using our Allergy Alert Consultation and Colour Record Card prior to Lockdown/s, You must engage with your client to ensure that all consultation questions are asked and recorded to check if a 'skin test' is required prior to RTW.

[Allergy Alert Card](#)

[Guidelines: Allergy Alert Card – How to](#)

Any and all subsequent colour services are subject to completion of the Allergy Alert Consultation and Colour Record Card.

You are reminded to comply with the terms and conditions of our Allergy Alert Consultation and Colour Record Card and of Use of, to ensure cover is operative.

Equally, we recommend that You contact your Colour House to ask for further direction on any additional measures that will be required for colour services in view of COVID-19. Always obtain written confirmation to be retained on client record.

As from 12 March 2021, Just Hair policies extend to include the following: -

[Colourstart v2 \(Passport\):](#)

[Patch Test Kit:](#)

Use of the Colourstart Passport system and Patch Test Kit are deemed acceptable forms of 'skin test' per the terms of the Insurer policy.

Return to Work (RTW): UPDATED 23/3/21

Skin Testing: [New or Existing Client?](#)

Have You been insured via our 'Just Hair' salon policy prior to Lockdown?

If No (You are a New 'Just Hair' Client):

As you are a new client and have not used our AAT (Allergy Alert Test) prior, you will need to test **all clients** when you return to work.

The 'live' rolling test is subject to completion of the card (recording) for every colour service; a positive answer will trigger retest/ GP referral and/ or new 12 month rolling process to recommence.

Return to Work (RTW): UPDATED 23/3/21

Covid Jab/ Colour Services

We are not scientists, but understand that the vaccine should not be a trigger *however we are directing clients to open dialogue with their colour house they use to obtain confirmation that a colour service can be undertaken; client to document dialogue/ obtain confirmation and record it.*

Insurance Conditions: Changes to Hair & Beauty Salons as from 2021

The Just Hair policy **is not subject to new conditions** applying to other insurance policy/s that have been highlighted and circulated over social media in the past 3-4 weeks.

The only amendment that has changed since COVID-19 is the inclusion of the now market standard endorsement:

CS0063 - Public and Products Liability - Communicable Disease - Total Exclusion

We do hope the document provides the clarity required to return to work.

Thank you in advance
